DDLFC Guest Player Policy

It is the goal of the Dayton Dutch Lions FC youth academy to provide every academy member with the best possible opportunities to play and develop. We also understand the desire of players to guest play with their friends and/or former teams.

DDLFC players guest playing with another DDLFC team

At any point during the season a DDLFC player can be asked to play with another DDLFC team. It is the preference of the club to have younger players guest play an age group up before players from other clubs are invited to guest play for a game or tournament.

DDLFC players guest playing for another team/club

For DDL Academy players to be allowed to guest play with other teams everyone has to follow the following policy:

- Player and family ask team head coach about playing.
- Guest playing will not be allowed if the team where the DDL FC academy member will guest play for plays against a DDLFC academy team in or during the game or tournament in question
- Guest playing will not be allowed if the DDLFC team the player represents has a game 24 hours after the team that player wants to guest play for (example would be if DDLFC team has a game on Sunday and player wants to guest play on Saturday for another team)

Outside players guest playing with DDLFC academy teams

When players from the age group below are not available to guest play, the DDLFC can occasionally invite players from other clubs to guest play for a tournament or game. When this happens the coaches are expected to follow the following policy:

- Guest player only starts the game when absolutely needed (an example would be the guest player is the only goalkeeper on the game day roster)
- Playing time for the guest player should be similar or less than DDLFC players that play the same position
